

ENVIRON INSTALLATION: SOMERFIELD FORECOURT, MARPLE

JULY 2007

PROJECT REQUIREMENTS:

As part of the planning application process, Environ Technologies were asked to provide a noise mitigation solution to control operating emissions from 4 No Mitsubishi Twin Fan Mr Slim AC units.

Residential properties were located within 5 metres of the proposed equipment location.

PRE INSTALLATION

4 NO MITSUBISHI TWIN FAN MR SLIMS at rear of store.

POST INSTALLATION

AC units were enclosed in situ using ENVIRON MODULA acoustic ventilation enclosures. An overall noise reduction of 25dB(A) was achieved at source. Install time 5 hours.
