

Super Silent Solutions

Acoustic Products for Outdoor Air
Conditioning Systems with Environmental
Consideration

Whisper Quiet Solutions made easy

Need a solution for Outdoor Equipment Noise?

...why not consider an Environ Environmental System?

Environ is a leading manufacturer of high performance environmental housings which reduce noise from outdoor mechanical equipment, in both domestic and commercial situations.

Our range of products provide simple yet effective solutions to this problem, whilst enhancing aesthetics and improving security.

Integrating innovative acoustic technology, our systems have been intelligently designed to eliminate noise produced by the operation of outdoor HVAC equipment, such as Air Conditioning systems and Air Source Heat pumps.

Whatever brand, make, or model of equipment, our systems deliver guaranteed performance advantages and quality assurance, enabling our customers to make informed decisions.

"We have used Environ acoustic enclosures in a number of our stores - and the solutions provided have been very effective. In addition, the team at Environ is always helpful, responsive and efficient - they are our first choice every time"

Dominos Pizza Group

Packaged Plant Solutions

Environ Lite

Outdoor Solutions for...

- Split Air conditioning units
- Air source heat pumps
- Small condenser plant

Our **Environ Lite** combines uncompromising acoustic and ventilation performance; intelligently packaged in an unobtrusive fully encapsulating design enabling Air conditioning equipment to operate in noise sensitive areas.

Standard features such as access doors, service bulkheads - for neater connections - add to the benefits, whilst airflow management via our patented airway system go to ensure zero loss in equipment performance.

Environ Lite is available in a wide range of sizes suitable for most types of split Air Conditioning and Air Source heat pump unit - when high levels of noise attenuation need to be achieved.

Our packaged plant solutions are compatible with single and twin fan horizontal airflow systems commonly used in domestic and commercial comfort cooling projects. Pre-fabricated components ensure quick installation on site.

Environ Lite features •••

Whisper Quiet

Exceptional noise reduction performance of over 20dBA for ultra quiet plant operation that won't disturb the neighbours.

Compact & Discreet

Compact design facilitates freedom of location; garden terraces or patio areas.

Secure & Protective

Protects equipment from debris build up and very secure.

Zero Performance Loss

Patented airway system maintains ventilation efficiency without performance loss.

HVAC Commercial Solutions

Environ Modula

Our **Environ Modula** system provides a complete packaged solution for larger HVAC equipment. Designed to allow plant items to be operated in noise sensitive locations without the need for further noise attenuation measures – visually unobtrusive for environmental consideration.

Modula combines excellent acoustic performance for quieter operation together with efficient airflow management ensuring no degeneration in equipment performance. The unique internal design ensures optimal operating conditions for internal plant.

Modula can be assembled on site by our technicians or pre-built with the HVAC system pre-installed for quick installation onto precast concrete slab or structural steel arrangement.

Standard features include lift off access with quarter turn locks and service entry point bulkheads to facilitate a safer installation.

Solutions for...

- **VRV air conditioning systems**
- **Large chiller sets**

- Acoustic solutions for vertical discharge systems
- Excellent noise reduction properties
- Optimises ventilation efficiency
- Straight forward installation
- Improves installation appearance

Why use Environ?

Our systems offer an innovative solution to managing machine noise in the environment. Environ products are recognised as a reliable solution for planning and noise legislation compliance and resolving retrospective noise problems.

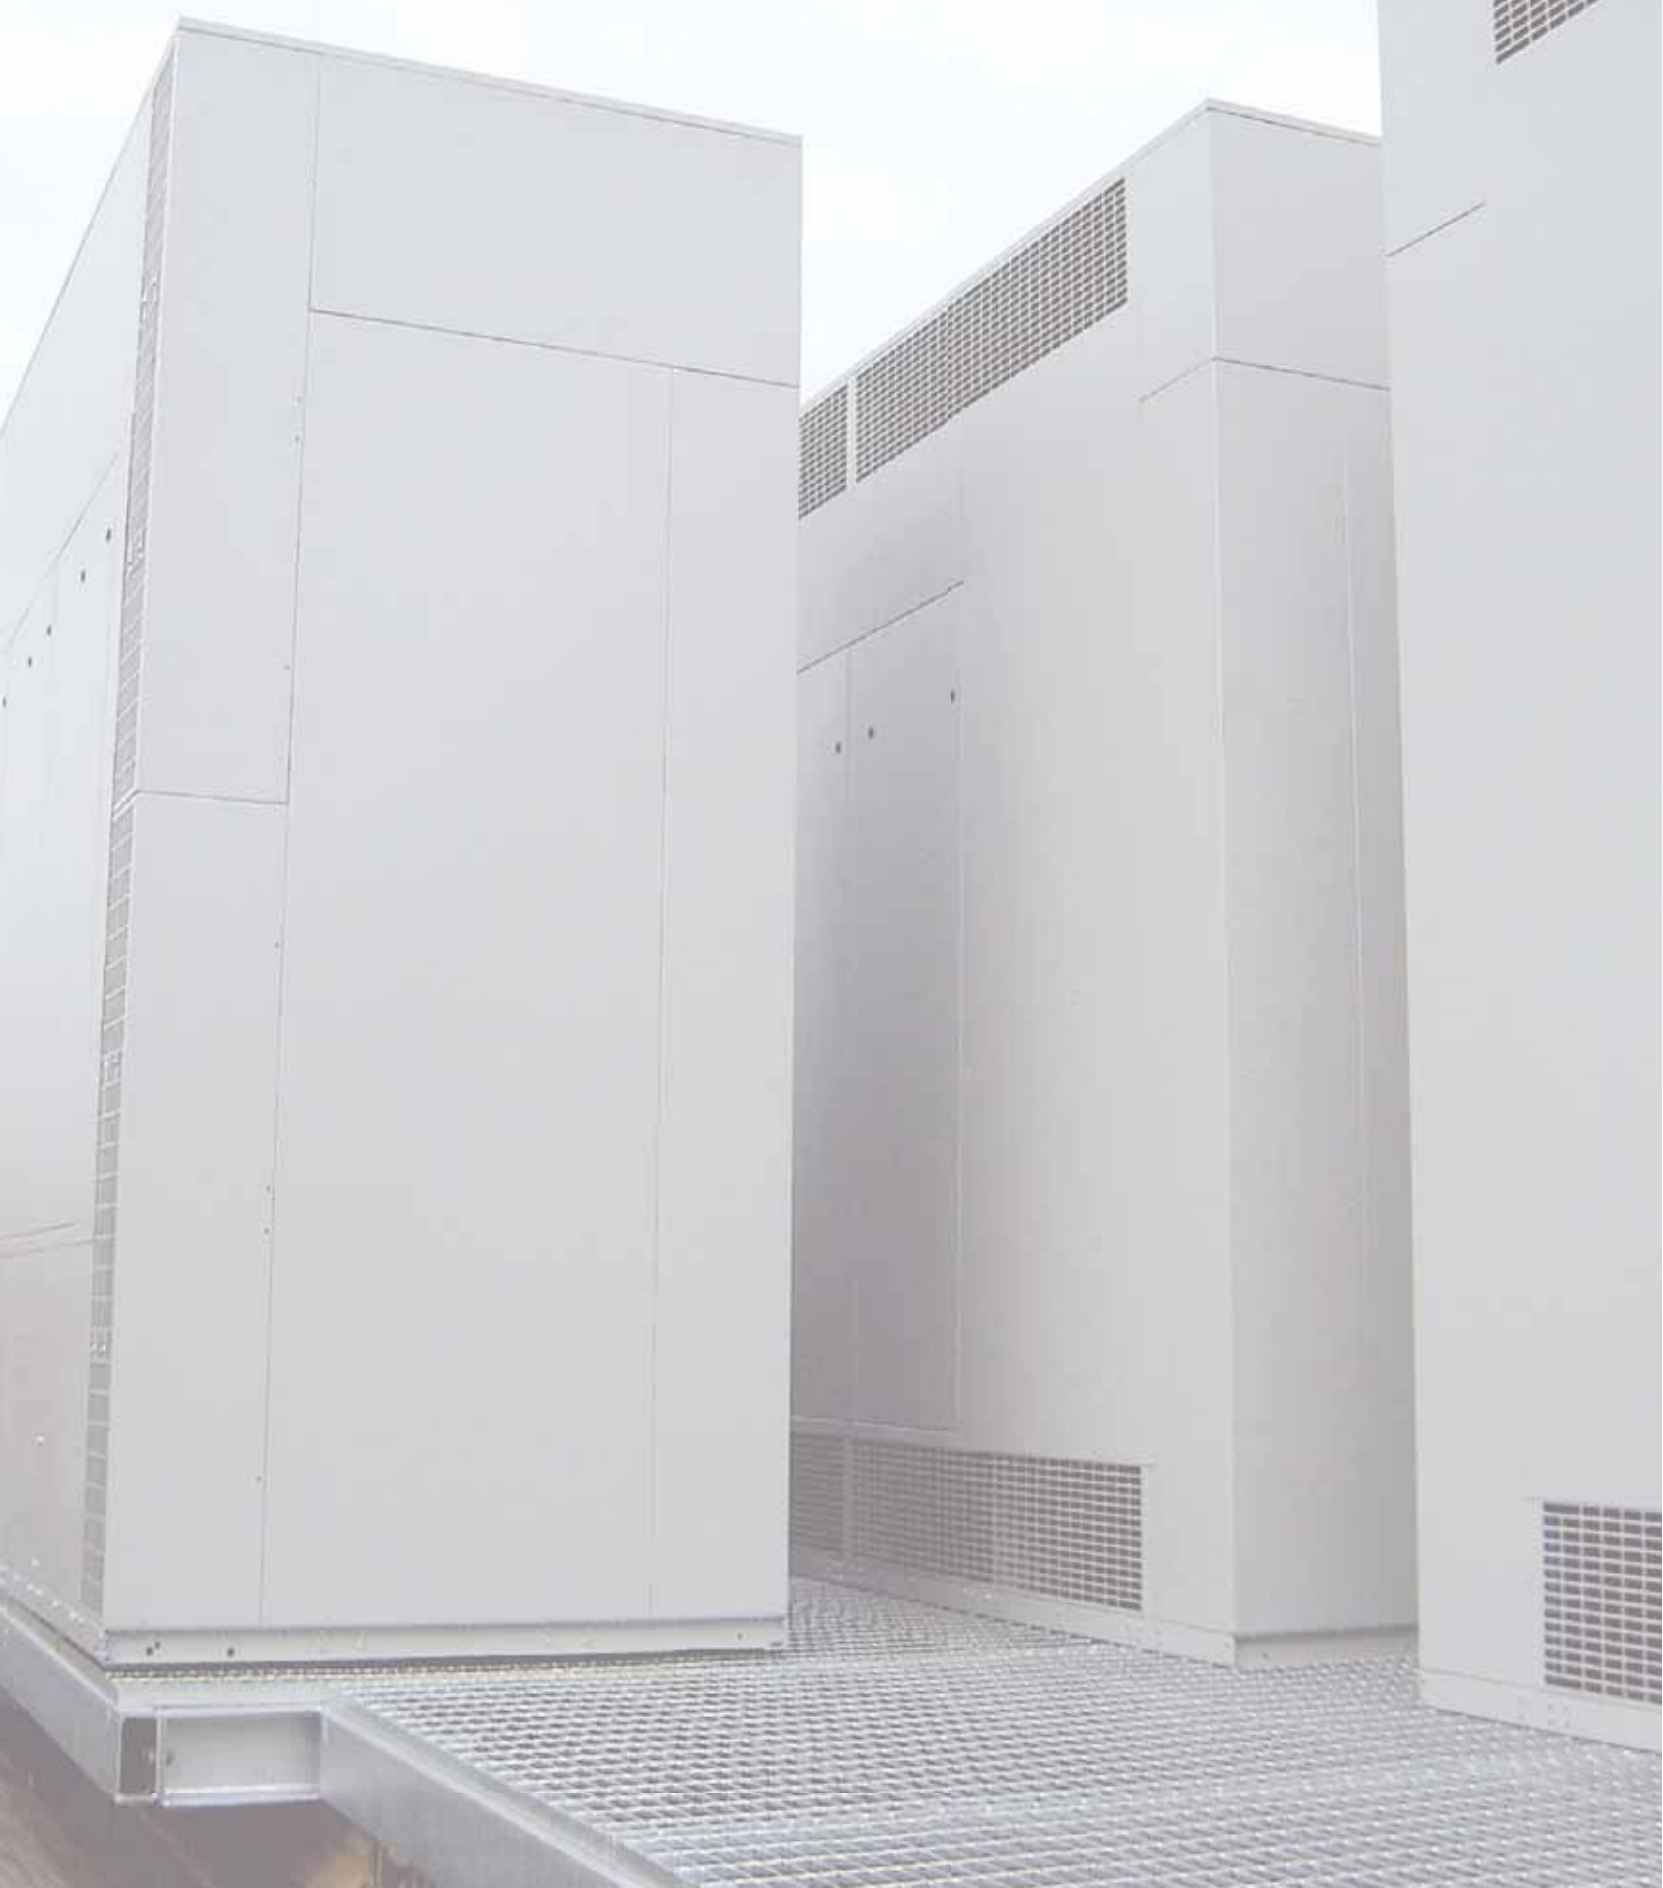

We offer a fast and efficient installation service UK wide and our technical team are always happy to help. Please give us a call on **0870 383 3344** or email **ask@environ.co.uk**

*"They are well made, compact and offer fantastic acoustic performance whilst still meeting the requirement for routine maintenance. The sales team and technical department are efficient and speedy to respond with very competitive prices."
"We have no hesitation in recommending their services to any other user."*
